

Consumption

There is no specific for consumption. Fresh air, exercise, nourishing food and Scott's Emulsion will come pretty near curing it, if there is anything to build on. Millions of people throughout the world are living and in good health on one lung.

From time immemorial the doctors prescribed cod liver oil for consumption. Of course the patient could not take it in its old form, hence it did very little good. They can take

SCOTT'S EMULSION

and tolerate it for a long time. There is no oil, not excepting butter, so easily digested and absorbed by the system as cod liver oil in the form of Scott's Emulsion, and that is the reason it is so helpful in consumption where its use must be continuous.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Those of the Officials: "Think of leaving something behind," urged the insurance agent, "to provide comforts and even luxuries for the little ones." "Yes," responded the sarcastic citizen, "Whose little ones?"

A young Chicago minister has been dismissed from his pastorate because he was "too good at pool," but does it seem quite right that a minister should be punished for being too good?

In declining an invitation to inspect the Panama canal Senator Morgan is not necessarily hostile to the enterprise. Perhaps he merely prefers to wait until there is something to inspect.

The Nebraska surgeon's suggestion that convicted murderers be vivisectioned in the interest of science might, if adopted, do some good in cutting down the number of murders, whether it helped science or not.

We've got the country, we've got the climate, and the grayheaded folks down this way prove that we're in no hurry to emigrate to paradise.

It is not at all necessary for a woman to learn Jiu Jitsu in order to know how to throw a man down.

Mr. McCordy's remarks on his suggested resignation show plainly that if the policy holders want him to vacate they must secure a good grip on the nape of his neck and seat of his trousers.

The Texas steer will have to hustle to keep up with the Texas hog. During the first nine months of the year one operator in Brazos county shipped out sixty-four carloads of swine, besides butchering 1,000 for the home market. He was not the only hog shipper thereabout, and Brazos is not the only good hog county in Texas.

A one legged man in New York has eloped with his son's sweetheart. If he had had the usual compliment of legs he would probably have taken the whole family.

We don't blame those Russian railroad men for striking. Think of a brakeman having to say "Change cars for Potismokokovoo-arari." That would make you strike.

William Travers Jerome has been put on the Republican ticket in New York. If there is anything Tammany would rather vote against than an independent, it is a republican.

The wife of a former St. Louis congressman intends to establish a college for the study of "occult and psychic phenomena." There is a whole lot about a St. Louis congressman's wife that is "occult," and should remain so.

At Montgomery, Ala., forty four years ago, the government of the Confederate States of America was inaugurated. At that same Montgomery Theodore Roosevelt, president of the undivided people of an indivisible republic, now proclaims the unbreakable oneness of this government and the everlasting brotherhood of this people.

The predicted dreadful results to American trade because of the Chinese boycott bugaboo are not born out by the facts, at least as far as the Puget Sound customs district is concerned. In September of last year goods for China to the value of \$214,645 were shipped from Puget Sound to China, but in September of this year the shipments reached a total of \$2,203,811, a tenfold increase. Imports from China to Puget Sound show a larger percentage of increase—from \$5239 to \$75,057, or nearly fifteen times as much.

WHAT A FEMALE REGULATOR IS

A vegetable liquid for governing or equalizing the flow of women's menses which occur once in every lunar month.

Emperor William is talking as boldly as if he had a big stick all ready. The first thing he knows somebody may knock the chip off his shoulder to see whether he really means it, and then he will have to make good or subside.

Being neither a society man nor a horse fancier, Mr. Cleveland refuses to visit the Chicago horse show. The hospitably inclined Chicagoans should take the distinguished visitor into the game market and let him see the ducks.
